WEDNESDAY NIGHT TRASH COLLECTION PUSHED-UP

Normal Wednesday night trash and recycling collection on the South Side and portions of the East Side of Allentown will begin at 9:30 this evening.

Waste Management crews will continue to work through the night while traveling conditions permit. Any uncollected areas will be completed Sunday night for trash and recycling.

Thursday night trash and recycling collections are cancelled. This affects the area from 11th Street west to the city limits and from Martin Luther King Drive north to the city limits. Residents in this area will be permitted to put out double the normal limit on Monday to compensate for the cancellation. Normal Thursday night recycling will be collected next Thursday, February 20.

Please call the Recycling Bureau at 610-437-8729 with any questions or go to www.allentownrecycles.org
